

# Fidelity

## Halfby

Taught the ways of men since I was a child  
Watching brothers in the streets running wild  
They love a honey up then drop her back down  
I'm here to give you solid loving pound for pound, yea  
Don't worry about thing baby  
I'll always do you right  
Don't worry about a thing baby  
I'll tell you about it girl  
Don't you know? You were always there for me  
I could never let you free  
Cross my heart that I can be strong  
And devoted to you  
Just 'cause I'm a man don't mean I'll let you down  
You've been my pride and joy, you're heart's safe and sound, yea  
When I had nothing you were right by my side  
I came from rags to rich, now I'm living high, yea  
Oh I still love it when we play all day  
Looking at each other's eyes and find sweet things to say, yea  
I understand a man who wants to fool around  
But if he knew what I knew about you I know he'd always be down  
Don't worry about a thing, baby  
I'll always treat you right  
Hey hey yeah  
Let me tell you girl  
You were always there for me  
I could never let you free  
Cross my heart that I can be strong  
And devoted to you  
I said, you were always there for me  
I could never let you free  
Cross my heart that I can be strong  
And devoted to you  
Don't you worry about a thing  
And I know that sounds so plain  
'Cause I can tell you anything  
To get me out of water  
I know it's going to be rough sometimes  
You never have to try to find another  
You were always there for me

I could never let you free  
Cross my heart that I can be strong  
And devoted to you
