

# Things In Life

**Dennis Brown**

It's not every day we're gonna be the same way  
There must be a change somehow  
There are bad times and good times, too  
So have a little faith in what you do 'Cause you don't seem to realize  
The things you've got to face in life  
Today you're up, tomorrow you're down  
So thank God that you're still around town  
Whoa, my brother Though we have got to work like slaves  
Just to eat a piece of bread  
But as we go along each day  
We'll find happiness to soothe our mind 'Cause it's not every day we're gonna be the same way  
There must be a change somehow  
There are bad times and good times, too  
So have a little faith in what you do, oh yeah Did you get me, yeah  
I want you to understand, yeah things in life
