

# Secretly

## Quartette TrÃ©s Bien

I've been biding my time  
Been so subtly kind  
I've got to think so selfishly  
'Cos you're the face inside of me I've been biding my days  
You see evidently it pays  
I've been a friend with unbiased views  
Then secretly lust after you So now, you feel rusty  
You're bored and bemused You wanna do someone else  
So you should be by yourself  
Instead of here with me secretly Trying hard to think pure  
Bloody hard when I'm raw  
You're talking out so sexually  
'Bout boys and girls and your frigg'in' dreams So now, you feel lusty  
You're hot and confused You wanna do someone else  
So you should be by yourself  
Instead of here with me secretly So now, you've been busted  
You're caught feeling used You had to do someone else  
You should've been by yourself  
You had to do someone else  
You should've been by yourself  
Instead of here with me secretly Secretly, secretly
