Call you up, I'm home alone

I need you baby, to bring tacos

Tonight's the night, we do our budget

Going to be in the spreadsheets all night long

Dig the sexy way you're moving as you mop the floor (bring me snacks now babe)

Ooo I love it when you put that charger in my phone (bring me snacks now babe)

Bring me snacks now baby, bring me snacks now babe

Bring me snacks now baby, bring me snacks now babe

Bring me snacks now baby, bring me snacks now babe

Bring me snacks now baby, bring me snacks now babe

Baby boo, you look so nice, when you give me that pizza slice.

Ooo my mind is about to blow, you remembered to DVR my favorite show.

Shorty it's so fly the way you bathe and feed our cats. (shave my back now babe)

Girl you got me lit when you bring me that mocha frap. (shave my back now babe)

Shave my back now baby, shave my back now babe

Shave my back now baby, shave my back now babe

Bring me snacks now baby, bring me snacks now babe

Bring me snacks now baby, bring me snacks now babe

You speak straight into my soul

when you show up at the house with the Swiss cake rolls.

I knew it was real from the start

because you knew my Chipotle order by heart.

You're so fly, your off the chain

When you skip Netflix to watch the game.

You're an angle, you're pure gold

When you put the seat down without being told.

You're everything, you come in clutch

When you borrow my car and fill the tank back up.

Not to brag, but I've been told

We're total # relationship goals.

Shave my back now baby, shave my back now babe
Shave my back now baby, shave my back now babe
Bring me snacks now baby, bring me snacks now babe
Bring me snacks now baby, bring me snacks now babe

Shave my back now baby, shave my back now babe
Shave my back now baby, shave my back now babe
Bring me snacks now baby, bring me snacks now babe
Bring me snacks now baby, bring me snacks now babe
