

# Inhaler

## Hooverphonic

Water falling down a hundred meters  
Colored by the sun in rainbow colors  
Paul is driving me around through fields of light  
Blinded by the sun fight the clouds  
Be an inhaler have no doubtsLet them take you on a voyage to another  
Let them take you on a voyage to another  
Let them take you on a voyage to anotherWater falling down a hundred meters  
Colored by the sun in rainbow colors  
Paul is driving me around through fields of light  
Blinded by the sun fight the clouds  
Be an inhaler have no doubtsLet them take you on a voyage to another  
Let them take you on a voyage to another  
Let them take you on a voyage to anotherAs I was saying, the stereo is full of surprises  
A new stereophonic sound spectacular  
A new stereophonic sound spectacularWere able to tell in an instant  
Where a particular sound is coming from  
A new stereophonic sound spectacular  
A new stereophonic sound spectacularA new stereophonic sound spectacular  
A new stereophonic sound spectacular  
A new stereophonic sound spectacular  
As I was saying, the stereo is full of surprises
