

Teen Lovers

The Virgins

Remember walking on the first time
A future, light in skin and bright brown eyes
It was September, girl you're looking so fine
Sex, pack, sleep fallin' she's my sign
One, two, three, four
The heart wants what it wants
don't ask no more
Teen lovers, don't wait
Vacation is over, don't wait
Teen lovers, don't wait
Vacation is over, don't wait
Standin' on front street
She's giving me the sign
Incentive: wanna know your DTF
Better look both ways before you cross that line
Five, six, seven, eight
Could you have made a move?
No, it's too late
Teen lovers, don't wait
Vacation is over, don't wait
Teen lovers, don't wait
Vacation is over, don't wait
(x2)
