Stronger

Totally Enormous Extinct Dinosaurs

The feel I love in you is making me stronger

But I know that heart, it waits for me just around the cornerI know it seems right, but I cant help but look into the future my love

Baby im yours, all yours, until the night im gonna let you down

Heart ache, it feels right until the morning light

Trust me im yours, all yours, up to the night im gonna fool aroundThe feel I love in you is making me stronger

But I know that heart, it waits for me just around the corner
