Hold On!

Omar Torrez

Hold on, hold onYou've got a girl who really loves you
(You've got a girl who really cares)
She'll do anything you ask her to
Yet you treat her wrong
Oh, you just string her along
Brother, if I were in your shoesI would hold on, hold on, hold on tight
And make the whole world know she's mine
I would hold on, hold on, with all my might
A love like hers is very hard to findShe does her best to make you happy
(She always does her very best)
You do your best to make her blue
Buddy, you've got it made
But you'd rather go and play
I know one thing for sure, if I were youI would hold on, hold on, hold on tight
And make the whole world know she's mine
I would hold on, hold on, with all my might
A love like hers is very hard to findShe's always there each time you need her
(Each time you need her she is there)
She gives her love so willingly
But you just don't care
You know that she'll be there
How I wish she'd felt that way about meI would hold on, hold on, hold on tight
And make the whole world know she's mine
I would hold on, hold on, with all my might
A love like hers is very hard to findHold on, hold on
