

Time

Hazel O'Connor

Hazel O'Connor
Wasn't it good the rose coloured glasses
Playing our games, taking our chances
Time was our friend, seemed to stand still
We were immortal that was until
We thought we take our fill
We'd time to kill
The time ran out on us
Time - ain't on our side
Time - took us for a ride
Then time ran out on us
How could we see the way that things change
Time takes its toll don't stay the same
Suddenly now is a long time gone
Time is immortal it waits for none
It's here and it's gone, the time run out on us
Time - ain't on our side
Time - took us for a ride
Then time ran out on us
Oh do you remember the first kiss in a darkened doorway
So naive and tender, eyes closed
Dreaming away. Do you remember?
We were forever, then time ran out on us
