

# Assassin

## Jefferson Starship

Something must be done about the lone man  
Gun concealed to carry out his heart of stone plan  
    He is eaten up with hate  
    Got your attention far too late  
Could you have stopped him if you'd known beforehand  
    He seemed like such a nice guy  
    To his neighbors  
    Kept to himself and never bothered them with favors  
        Nobody ever knew him  
        There was nobody to see through him  
He was left alone to plan the death of his betrayers  
    Who's gonna be the hangman  
        Who's gonna be the judge  
        Who's gonna cast the first stone  
    Who'll settle up this grudge  
        It's so obvious the man is guilty  
        Tell me who is capable of showing any pity  
    Can anybody name the real assassin  
        No one's gonna take responsibility  
        How did this man come out of our society  
        Could our intervention  
        Have prevented his intention  
Well you know he's gonna plead insanity  
    Who's gonna be the hangman  
        Who's gonna be the judge  
        Who's gonna cast the first stone  
    Who'll settle up this grudge  
        Who's gonna be the hangman  
        Who's gonna be the judge  
        Who's gonna cast the first stone  
    Who'll settle up this grudge  
        It's so obvious the man is guilty  
        Now tell me who is capable showing any pity  
        Can anybody name the real assassin
