

Woman Back Home

Alabama

I got her in my heart and I got her in my head
I got her in love and I got her in bed
I got her, thank for all I own
If it wasn't for her love, I'd be all alone
She's my woman back home that treats me right
Early in the mornin' to late at night
It doesn't really matter, any time's all right
Wish my woman back home was here tonight to hold me tight

Thinkin' 'bout her now in my hotel room
I'm wonderin' when and I'm hopin' it's soon
I see her smile and her eyes are green
She's the prettiest girl my eyes have ever seen
She's my woman back home that treats me right
Early in the mornin' to late at night
It doesn't really matter, any time's all right
Wish my woman back home was here tonight to hold me tight
