

Corplantationopoly

Public Enemy

Bump bump bump bump bumpinBump bump bump bump bumpin
music you love
owned by something
pity pity
flock to these cities
seem to forgot
punch the robot
new waysreplacethe old daze
know the old guysrule 'in disguiseOwning them masters
corplantations
making disastersFlavor flav
to the beat yall, you dont stop,
to the beat yall, you dont quit
Manipulate thought
bait and switch
mind corp
caught but never taught
who owns the corp
free the body
arrest the spirit
everybody looking around
waiting for them to hear it
capital court
the ad psyche
soul is bought
your soul just might be
triggered by greed
that feeds the lust
they live for the
pleasure
the high
and
the head rush
Bump bump bump bump
how can i say this?
bump bump bump bump bumpin
and here i go
here come the black hippy
cause they trippin

cmon and get wit meBump bump bump bump

how can i say this?

corplantations spreading that matrix

pity pity

flock to these cities

seem to forgot

punch the robot

made a livin

steal thanksgiving

the law been giving

blood in my pocket

corporate

prophet

out for just profit

dare you to stop itBump bump bump bump

plantations plus corporations

corplantations

how can i say this

corplantation

spreading that matrix
