

Whiplash

Fish

--- "Whiplash" Taken from the Fish Single "A Gentleman's Excuse Me" ---

Hang a left, turn a right, we're driving through the night

We're on the road with Fred

Any time, anywhere, we'll be sure to get you there

That's the road with Fred

With his foot right to the floor, there's a corner coming on,

Whiplash!

He'll overtake anywhere, he doesn't really care

That's the road with Fred

Through rain, and snow, and fog, you sit and pray to God

And place your faith in Fred

You've got to close your eyes, so you'll never get surprised

By whiplash!

(a bridge)

Chew your nails right to the bone, you're on the wrong side of the road

On the right side of Fred

A collision coming on, you pray the brakes are gonna hold

On the road with Fred

A nut is loose behind the wheel, hear that rubber squeal

For whiplash!

Hang a left, turn a right, driving through the night

On the road with Fred

Any time any where, We'll be sure to get you there

On the road with Fred

He's got a mobile telephone, but you pray that no one comes

For whiplash.

[FISH]
