

Cover You In Oil

[Ac/dc](#)

I like to slip into something good
I see a young girl in the neighborhood
The way she move, I must confess
I like to run my hands up and down her legs
The way she dress, she look so fine
I'll make her wet, I'll make her mine
She like it hard, she like it slow
All right honey, come on, let's go
Baby, what you want, it's the way she move
Feel what you need, come on, let's go

CHORUS

Cover you in oil
I wanna cover you in oil

Let me cover you in oil
Cover you in oil
Pull on the zip, she give good lip service
It's nothing for the show, I just pay to see her go
She make you hot, you spray your lot
Comin' in honey, we're headin' to the top
The way she push, don't give a dime
Abuse your life, gonna make you satisfied
She's kinda rough, she give it tough
Come on honey and strut your stuff
Baby, what you want, it's the way she move
Feel what you need, come on let's go

CHORUS
