## **Flirtini**

You see more of your T.V Then you ever did of me Your best friends channel 9 We took your list, the ones alive There the last but your just fine but thats not the way life goes I just look into your eyes 'cause i wanna see I wanna go Baby just come with me Lets go lets go lets go, to the beach lets go lets go just you and me Lets go lets go...well be free well be free ya well be free Tanning oil and palm trees Lots of friends and beach parties Your not strong then even a Bitch Run away to miles of sand You and me and maybe my band Youll have fun im sure of it

I just look into your eyes
'cause i wanna see
I wanna go Baby just come with me
Lets go lets go lets go, to the beach
lets go lets go just you and me
Lets go lets go...well be free
well be free ya well be free
I dont understand how
Life can pass you by
And baby ill make you fly...Ill make you fly ill make you fly fly fly ill make you fly
Lets go lets go lets go, to the beach

Lets go lets go lets go, to the beach
lets go lets go just you and me
Lets go lets go...well be free
well be free
Lets go lets go lets go, to the beach
lets go lets go just you and me
Lets go lets go...well be free
well be free you well be free you well be...
