

La'hov

Mates of State

Thought about who you are
Your dad is alright
But you fooled it up to weather
You bet he's alrightGet off your ass before you go
You never look upKori:
Should I try to undo the words that I just said
Replace them with your words insteadJason:
Your father said you never looked that alive
Nobody says you ever looked that aliveGet off your ass before you go
You never look upKori:
Should I try to unmake the moves that I just made
Replace them with your moves insteadJason:
Your father said you never looked that alive
Nobody says you ever looked that aliveGet off your ass before you go
You never look upThought about who you are
Your dad is alright
But you fooled it up to weather
You bet he's alright
