

# Fire And Ice

[Axxis](#)

Stay where you are  
And hear the natural sounds  
Blowin' in your ears  
And if you try to understand  
Be captured by unknown fears Cause our world has changed its face  
Day by day  
See the signs all around  
The nature strikes back Fire and ice  
Cold and heat  
Hunger and war Like a drop on a burnin' stone  
We'll vanish in the universe  
Are we the owner of our own?  
No, that's not mankind's earth Forgotten are all these promises  
On which we've build our lives  
Forgotten are all the preachers  
With all their lies Fire and ice  
Cold and heat  
Hunger and war
