

# I'm Raw

## Lil' Wayne

Mic check 1, 2 on the way to third  
Flow sick; put a straight jacket on my words  
So sick, they think that something's in the herb  
They think i'm gone, but i'm fine like a woman's curves  
My personality is far from your reality, i'm closer to your girl,  
now come on ho don't embarrass me! There is no comparing

This right here be kerosene, carousel, parasail, im higher than everything  
When I spit u cant drink it like your 17  
I can show a million pair of eyes that they've never seen,  
And I can do this in whatever the weather brings  
Picasso couldn't paint a better scene, colossal  
Now give me the mike and i'll rock like a fuckin fossil  
I'm mad at the track, and i'll beat it like H
