### Under the Moon

#### Verse 1

I lost my way through the fog that night  
When I pulled up to a bar with a flashing red sign  
Thought Iâ€™d rest and get a bite to eat  
Fell into a booth because I was beat.

Far in the corner I felt those eyes  
Looking at me from the shadows inside  
flickering light made it hard to see  
I got a feeling she was looking at me.

#### Verse 2

She began strolling to me from there  
Like a cat on a fence in her long black hair.  
I couldnâ€™t move and began to sweat  
Something about that short leather dress  
  
Smoke in the room and sawdust on the floor  
On the wall above was the head of a boar.  
Bottles on the bar, bouncers at the door.  
Tattoos on the barmaid  
with a vibe you canâ€™t ignore.

#### Chorus 1

She whispered in my ear  
Thereâ€™s a full moon out  
Letâ€™s skip the small talk  
Follow me for a walk  
Thereâ€™s a world youâ€™d like to know  
When the night is aglow  
She led me in the woods  
I began to feel strange  
When she howled  
And her eyes changed.

#### Verse 3

She bite me so hard on the lip  
That blood began to run and drip  
Instead of feeling pain I felt rearranged

Began to get warm and feel deranged

I had past the point of return  
When I felt my head begin to spin  
Forgot where I was going or where I had been  
Felt like I was wearing an animal skin

Verse 4

Under the moon I felt rather strange  
Then suddenly a craving in my veins  
We ran through the night in the cover of the woods  
Hunting for food and howling like wolves

When the sun came up , she disappeared  
Ever since then I been feeling really weird  
Wake up in the morning with ripped up clothes  
Fur in my nails and blood from my nose.

Chorus 2

Under the moon Iâ€™m not the same  
It drives me insane  
It started with her on that fateful night  
When the moon was bright

Under the moon  
I return to that saloon  
To find out what she did  
Maybe there are more  
With that wolftress I adore  
Where were all the sameâ€all the same

Under the moon
