Watch Your Step

Anita Baker

I don't understand your thinking Don't know why, you do the things you do Break my heart, and disregard my feelings Breaking hearts, some kind of game to youI tell you, you better watch your step You'll fall and hurt yourself one day baby listen, you better watch step You'll fall and hurt yourself one dayIt's so easy, to tease me It's so easy, to let me down It's so easy, to mislead me It's so easy, to leave me hangin around no where to come down. Maybe we should just forget this Maybe, just put me out of your mind I won't stay, not while you mistreat me I won't stay, It's just a waist of my timeI'm tellin you, you better watch your step You'll fall and hurt yourself one day baby listen, you better watch step You'll fall and hurt yourself one day
