

# Grab the Gold

## Ratham Stone

Capo 4

Verse Em G D

You look sad now, hide the gold  
With the diamond rings, beneath the seats  
Pushed back so deep no hands will reach  
Thinking fast how, to pull it off  
Thereâ€™s flashing lights, just outside  
Leave tonight, or its 3 to 5

Bridge Em C

Stay you might get caught  
You need to come along

Chorus G D Em C

Now itâ€™s time to go, darling grab the gold  
Leave everything we own  
Were outlaws on the run  
Now were driving so fast, never stop to look back  
Everything I need, is sitting next to me  
Darling grab the gold

Verse

Now were driving reckless  
Cause threes nothing like them telling us  
That all we have is not enough  
Weâ€™re heading up while the world goes down  
Theyâ€™re after us theyâ€™re all around  
The reasons why we left this town

Bridge Em C

Stay you might get caught  
You need to come along

Chorus G D Em C

Now itâ€™s time to go, darling grab the gold  
Leave everything we own  
Were outlaws on the run  
Now were driving so fast, never stop to look back  
Everything I need, is sitting next to me

Darling grab the gold

Bridge Em G D

I'm most wanted on TV

A hundred cops are chasing me

For a little sack of gold

And banks are getting robbed

Buildings are getting bombed

And the lies we tell grow old

Bridge Em C

Stay you might get caught

You need to come along

Chorus G D Em C

Now it's time to go, darling grab the gold

Leave everything we own

Were outlaws on the run

Now we're driving so fast, never stop to look back

Everything I need, is sitting next to me

Darling grab the gold
