Loaded Gun

Dionysus

[bonus track]There is thunder ahead
I just want you to know this
my eyes will be set on you
Because you are my game todayI know your face, know the life you live
I know enough, let your fears ride on free
I'll bring you down, soon you'll knowyou cannot hide cause i know where you are
I read the fear in your eyes
Just like an open book
I'll find a way to take back what is mine
I'll be your foe and I will fight
Just like a loaded gunRevenge is all mine
I just want you to know this
Cause life ain't a game no more
Lightning is waiting to strikeCan you hear Heaven calling out your name
A choir of angels taking home their claim
Defeat is near now, my friend
