Princess

Tommy Steele

princess if you love me, I'm a prince, saw you, and I've loved you ever since, found you with a crowd around you, from the time that bound you, stood my ground, and now I've crowned you, my princess, though there's nothing in a name, others would have sounded pretty tame, if you where poorer, I could be no surer, that you're a princess, may I call you princess, if you say you love me, I'm your prince.
