Kiss My Lips (feat. Dev)

Borgore

I know what you want, you know what I need
Show me what I came for
There's only one thing you gotta do for me
Just promise not to stop when I say so
[2x]

Just promise (promise [?x]) [3x]

Stop when I say so

I say so [2x]
Kiss my lips, kiss my lips, kiss me all over
Are you gonna take that risk, take that risk?
'Cause we're only getting older
I said kiss my lips, kiss my lips, and do it all over
I know you weren't expecting this tonight
But baby that's me
[2x]
