

Sixth Sense

Anand Bhatt

I know when you know I
cant be on my own
I can sense what you want todayBaby I know your mind
I know that you need me
Baby I can sense what you needI have got a sixth sense
when you've got me in your head
so go ahead and send your thoughts to meI have got a sixth sense
when you've got me in your head
so go ahead and send it on to meFlow out of you into the air
you talk to me in my head
I can sense what you think todayI know that you need me too
Baby I can feel it from you
I know just where you are today
