Freedom

Gorefest

I tried to live six years ago
When this story started
The sun, it told me where to go
Open minded, open heartedFreedom, freedom was my vision
Every breath a dream
A million, a million years ahead
All is what it seemsFreedom, freedom was my vision
Every breath a dreamOr are you taken by surprise?
Covering your sleepy eyes
The mocking bird won't sing for you
What ever happened to these friends I knewThese friends I knew
Or was it just a dream?
But dreams are for real
Life is only how you feelFreedom, freedom is my vision
Every breath a dream
A million, a million dreams ahead
And they're all for realFreedom, freedom is my vision
Every breath a dreamBreathe on
