Catchy (Was Contagious)

Avey Tare's Slasher Flicks

DUPLEX TRIP
List to be safe
Keep your mind off your ma
List to be safe
Gotta let the light shine out
List to be safe
Let the trees hang over
List to be safe
Gotta let the night have dawnYou can untie ties that have you tied upside
They're all too tight
This is not plasticine
You're moving at
But they will not go
When you want it outIs not within
They're slowing down
Is not within
When the night reverts in
Is not within
When the night is slowing down
Is not within
And you will come back
Or you won't come back
You will come backOnce you feel safe
You can hand out ...
Once you feel safe
You can bleed the light at dawn
Once you feel safe
We can move on, brothers
Once you feel safe
You can bleed the light just fineYou can untie ties that have you tied upside untied
They're all too tight
This is not plasticine
You're moving at
But they will not go
When you want it outIs not within
They're slowing down
Is not within
When the night reverts in
Is not within

When they're slowing down
Is not within
And you will come back
Or you won't come back
Oh, you will come backIndeed, an easy moment
This track's an easy moment
I need an easy momentIs not within
They're slowing down
Is not within
When the night reverts in
Is not within
When they're slowing down
Is not within
And you will come back
Or you won't come back
Oh, you will come back
