

Touch and Go

The Cars

All I need is what you've got
All I'll tell is what you're not
All you know is what you hear
I get this way when you come near Then I know, it's gone too far
Uh oh, I touched your star and it felt so right
Just like the hush of midnight
And then you said with me it's touch and go, oh oh oh
Touch and go, oh oh oh All I need is you tonight
Flying like a cement kite, yeah
In your headlock on the floor
Who could ever ask for more And I know, it's gone too far
Uh oh, I touched your star and it felt so right
Just like the hush of midnight
And then you said with me it's touch and go, oh oh oh
Touch and go, oh oh oh All I want is you tonight
I guess that dress does fit you tight, yeah
You know that look does make me shake
It almost looks too good to fake And I know it's gone too far
Uh oh, I touched your star and it felt so right
Just like the hush of midnight
Then you said with me it's touch and go, oh oh oh
Touch and go, oh oh oh Well it's touch and go, oh oh oh
Touch and go, oh oh oh Well it's touch and go, oh oh oh
Touch and go, oh oh oh
Touch and go, oh oh yeah Well it's touch and go, oh oh oh
Touch and go, oh oh oh
Touch and go
All I need is what you've got
