Get a Knife Between Your Teeth

McCarthy

You thought they would see your point of view
If you put it to them nicely
You stated your case and you bowed to them on the way outBut nothing was ever done
Cause you've got no knife between your teethThey never see your point of view
You get nothing unless you grab it
If you smile politely all your life no one will ever thank you for itBut nothing was ever done
Cause you've got no knife between your teeth
But nothing was ever done
Cause you've got no knife between your teethRaise your voice and raise your fist
Troublemakers your time is coming
You have the planet at your feet
You can kick the whole world forward
When you want to get something done
You must get a knife between your teethWhen you want to get something done
You must get a knife between your teeth
