

I Paralyze

[Cher](#)

I won't waste your time
By pretendin' I am somethin' else
You've got eyes to see
I leave the modesty to someone else I'm reading your mind
I know what you like
I've peeked into your fantasies It works every time
I'm confident
I can take you, I can take you anytime I paralyze
Body and the soul are immobilized
Honey, you're as green as a dollar bill
Don't get caught in the power of a whim Earth is gonna shake
Watch me elevate your expectations
Oh, what is happenin'?
You'll be further in your education I think it all out
I know what to say
To get you on my side It works every time
I'm confident
I can take you, I can take you anytime I paralyze
Body and the soul are immobilized
Honey, you're as green as a dollar bill
Don't get caught in the power of a whim Gotta way
Gotta way of gettin' what I want
Gotta way
Gotta way of gettin' what I want Gotta way
Gotta way of gettin' what I want
Gotta way
Gotta way of gettin' what I want I paralyze
Body and the soul are immobilized
Honey, you're as green as a dollar bill
Don't get caught in the power of a whim Better watch your step 'cause I paralyze
Body and the soul are immobilized
I can see you are a man who will never quit
I'm so glad 'cause I think, I'm gonna like it
