No One Said

Shareefa

Yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah
Lemme talk to y'all for a minute
Said, I woke up this mornin', tried to get myself together
Gotta face another day, people laugh, smile in my face
Have to keep it movin', roll my spliff and sip my henny
Gotta clear my mind, time is precious, gotta stay on the grind
No one said that this life would be easy
So sick and tired of bein' tired, please believe me
No one said everyday I'd have to hustle
Everyday in my life seems like a struggle
On my way to the doctor, boy, today is not my day
Got some mornin' sickness and my period is late
Am I hallucinatin', 'cause things ain't went my way since
Back in the day, nobody said, that my life would be easy
No one said that this life would be easy
So sick and tired of bein' tired, please believe me
No one said everyday I'd have to hustle
Everyday in my life seems like a struggle
In the end, I will always come out fighting
Keep it real, keep it movin', keep on grinding
You can't lose if you stay true, that I promise
'Cause no one said, no one said, hey
No one said that this life would be easy
So sick and tired of bein' tired, please believe me
No one said everyday I'd have to hustle
Everyday in my life seems like a struggle
No one said that this life would be easy
So sick and tired of bein' tired, please believe me
No one said everyday I'd have to hustle
Everyday in my life seems like a struggle
No one said that this life would be easy
So sick and tired of bein' tired, please believe me
No one said everyday I'd have to hustle
