

I'm Awake

[Maria McKee](#)

Like honey in my mouth, gold golden goin' down
I shudder with wonder at what we will feel like together
I'm wrapped up like a gift, cut ribbon, feel me drift
Petal by petal the sweeter the deeper for waiting
Our wild weather exquisite and violent could never betray me
It slays me, I live to die again in your arms
Hold back outside the door, don't touch me anymore
Hand barely touching hand
