

# Take Cover

## All Time Low

This is a cry out  
To the ones in the gutter  
To the sorry unfaithful  
We lonely few  
We band with others  
We stand apart  
In a trial by fire  
We'll make it through There are some for [?]  
We can die like the heroes before us  
Or live to be the wicked ones  
The wicked ones we're running from  
[Pre-Chorus]  
Nobody's gonna believe  
When you say you're turning the page  
Cause you never put up a real fight  
So shut up and make it right  
Shut up and make it right [Chorus]  
Singing "oh, take cover, take cover"  
Singing "oh, take cover, take cover"  
Secrets don't make friends  
We make love, and love falls apart  
Singing "oh take cover"  
From our future hearts [Verse]  
Here comes the fall out  
The trouble and clutter  
The madness of millions  
If we only knew  
Surely there would be  
Some kind of redemption  
A trial by fire  
To pull us through [Pre-Chorus]  
Nobody's gonna believe  
When you say you're turning the page  
Cause you never put up a real fight  
So shut up and make it right  
Shut up and make it right [Chorus]  
Singing "oh, take cover, take cover"  
Singing "oh, take cover, take cover"  
Secrets don't make friends

We make love, and love falls apart  
Singing "oh take cover"  
From our future hearts[Bridge]  
Secrets don't make friends  
We make love, and love falls apart  
Tell me when the party ends  
And take cover from our future hearts[Chorus]  
Singing "oh, take cover, take cover"  
Singing "oh, take cover, take cover"  
Secrets don't make friends  
We make love, and love falls apart  
Singing "oh take cover"  
From our future heartsOh [x2][Outro]  
Tell me when the party ends  
And take cover from our future hearts  
Singing "oh, take cover, take cover"
