# I'm Over You

## Brooke Hyland

You told me you would love me forever
You told me you would alway's do me right, oh
When you said that you had to leave I thought I would die
When I didn't have you right by my side
Now I'm Over You
[1] - Now I'm over You, I knew I would get over you
No matter how long it takes
Now I'm over you, I knew I would get over you
I wanna thank you for walkin' out my life
Remember when we made love at night, hmm, hmm, hmm
Remember when you kised and held me tight, oh ye-yea-yeah
Remember when you promised that I'll never cry
You know I cried myself to sleep every night
That's why I'm over you, oh

[Repeat 1]What about my feelings?
What about my pride?
What about my heart I gave to you?
What about the years I was blind.
What what about the times I picked you up when you were down
But I guess it don't mean the same to you
That's why I can't get over you, whoa
[Repeat 1 (2x)]For getting me over you, oh...
