

Zippo

Corrosion of Conformity

Amplified on fire, strapped to take you higher
Queens appear, strapped, you made it clear
Is everybody with me, is everybody cool?
Is anybody lazy, am I the only fool? I said, "Hell, maybe you's a rock 'n roller
You know, you know"
Hell, maybe I should've been colder, you know, you know
Ditch that wish and sell your soul That's what makes it so damn hard to find her, to find her
Was down beat crazy, lumps to make you hazy
Ride on fear, wings they disappear
Is everybody with me, is everybody cool?
Is anybody lazy, am I the only fool? And I said, "Hell, yeah, maybe you's a rock 'n roller
You know, you know"
Hell, maybe I should've been colder, you know, you know
[Incomprehensible] I was down town freaky, strapped you made it tricky
Heads go under, show no gonna roll you over
Is everybody with me, is everybody cool?
Is anybody lazy, am I the only fool ? I said, "Hell, yeah, maybe you's a rock 'n roller
You know, you know"
Hell, maybe I should've been colder, you know, you know
Ditch that wish and sell your soul
Life that touch and make your body rock, oh
Make your body rock, oh, make your body rock, oh
Make your body
