

I Love My Lips

VeggieTales

If my lips ever left my mouth
Packed a bag and headed south
That'd be too bad
I'd be so sad

That'd be too bad

If my lips said adios
I don't like you I think your gross
That'd be too bad
I might get mad

That'd be too bad

If my lips moved to Duluth
Left a mess and took my tooth
That'd be too bad
I'd call my dad

That'd be too bad

That'd be too bad
It'd be so sad
I might get mad
I'd call my dad
That'd be too bad

That'd be too bad

Bbbbbb?..

It's a lip
It's a lip
It's a lip lip lip

It's a lip
It's a lip
It's a lip lip lip

Liiiips

Lip

Lip

Lip

When I was just two years old

I left my lips out in the cold

And they turned blue

What could I do

Oh they turned blue

On the day I got my tooth

I had to kiss my great aunt Ruth

She had a beard

And it felt weird

She had a beard

Ten days after I turned eight

Got my lips stuck in a gate

My friends all laughed

And I just

Stood there until the fire department came and broke the lock with a crowbar and I Had to spend the next six weeks in lip rehab with this kid named Oscar Who got stung by a bee right on the lip and we couldn?t even talk to each other until the fifth week cuz both of our lips were so swollen and when he did start speaking he just spoke polish and I only knew like three words in polish but now I know four because Oscar taught me the polish word for lip usta.

They turned blue

What could I do

She had a beard

And it felt weird

My friends all laughed?.usta!

I love my lips!

Bbbb?.
