

Out On the Town

Tanita Tikaram

I'm, just out
Just out of my bed
And if I need some money
I will go get some money And if I'm just out
I'm just out on the town
And if I need some money
I will go get some money And I I'm just down
I'm just down on my luck
And if I need another
I will go find a lover And if things they work out, I'll continue to seek
Happiness is, happiness is, happiness is
All around and worth the waiting
All around and worth the waiting And I, I'm just out
I'm just out to friends and family
Well I, I'm unpaid
I'm not skilled, I'm not scared I'm just out on the town
As the town it seems so funny sometimes
How can you smile? When you're down on your luck And if things they work out, I'll continue to seek
Happiness is, happiness is, happiness is
All around and worth the waiting
All around and worth the waiting It blows my mind to think you're mine
It blows my mind to think you're mine And I'm just out
Of the times that we spent together
Oh, I always count, all the dream-time And I am not out
On the town for any funny feeling
I, I'm just down on my luck
I am down on my luck
I am down on my luck, I am down
