

Somebody to Call My Own

We The Kings

I woke up with a headache
From a night I won't forget
I close my eyes,
'Cause this ain't over yet Brooklyn bowl,
I lost control and knocked down all your pins
'Cause I just want to leave with you
You'd rather be alone It's a long walk home When somebody loves,
Somebody falls
You're driving me crazy
You don't know When somebody stays,
Somebody goes
Sometimes it's only lonely roads So don't say goodbye
I can't close my eyes
I'm spinning around inside When somebody rocks,
Somebody rolls
I just need to find
Somebody to call my own Oh, oh, oh, oh, oh
Singin' woah, oh, oh, oh, oh, oh I woke up with a taste of you
Tattooed on my lips
It's so messed up
I can't recall the kiss Hand grenade got blown away
When you pulled out the pen
'Cause I just want to leave with you
You'd rather be alone It's a long walk home When somebody loves,
Somebody falls
You're driving me crazy
You don't know When somebody stays,
Somebody goes
Sometimes it's only lonely roads So don't say goodbye
I can't close my eyes
I'm spinning around inside When somebody rocks,
Somebody rolls
I just need to find
Somebody to call my own My only one
If I've come undone
Would you sell me out? If I'm broken down,
Would you stand your ground
And fall in love
With me? When somebody loves,

Somebody falls
You're driving me crazy
You don't know When somebody stays,
Somebody goes
Sometimes it's only lonely roads So don't say goodbye
I can't close my eyes
I'm spinning around inside When somebody rocks,
Somebody rolls
I just need to find
Somebody to call my own
