

# Underground

Matthew Sweet

Me and my girl are going underground  
Got no time to tell you what we found  
People in this world aren't very kind  
And love is blind, love is blindAll we want is on our minds  
We don't have a map, we don't follow signs  
Seems useless for you to look for attack  
No tracking us down and no bringing us backMe and my girl are going underground  
Got no time to tell you what we found  
People in this world aren't very kind  
And love is blind, love is blindWe are going very far  
You can't take a plane, you can't take a car  
Seems useless for you to look for attack  
No tracking us down and no bringing us backAll we want is on our minds  
We don't have a map, we don't follow signs  
Seems useless for you to look for attack  
No tracking us down and no bringing us backMe and my girl are going underground  
Got no time to tell you what we found  
People in this world aren't very kind  
And love is blind, love is blindMe and my girl are going underground  
Got no time to tell you what we found  
People in this world aren't very kind  
And love is blind, love is blindMe and my girl are going underground  
Me and my girl are going underground  
Me and my girl are going underground
