Behind You

Magdalen Graal

I feel youre leaving your way
You know your way
You look at the train in front of you
Im feeling you

You will meet a new sky and new stars
You will see a new peace is a new war

Im hearing your voice say good bye
Your heart is mine
Im looking again behind you
Behind you

You will meet a new sky and new stars
You will see a new peace is a new war
You will see some place never seen
You will be someone that you've never been

Youre looking again behind you
Behind you
Behind you
Behind you
Behind you
Behind you

You will see some place never seen
You will be some one that you've never been

Some place never seen
Oh some place never seen

You will meet a new sky and new stars
You will see a new peace is a new war
You will see some place never seen
You will be someone that you've never
Never been
