

Concerta

Cash Cash

Check, are you even here?

Oh, can't you see that I'm ready to go?

Oh, I better not show

I'm drawin' dead and I'm ready to fold

Waitin' for someone to deal when the cards come fallin'

Down on the bet, bet it's all in your head

So shake your fist if you're even here

Down on the bet, bet it's all in your head

So shake your fist if you wanna go

Oh, you're losin' control

You're beggin' please and you're ready to go

Oh, I better not show

I'm drawin' dead and I'm ready to fold

Take, take a risk, you're movin' slow

This one's for sale lady, not for show

Do you want to fold or go home?

You're drawin' dead and it's startin' to show

When I think of what you bet I hope

Your shake, shakin' in your skin

I wish for you to find their love from the world you burn above

So be careful what you wish for when the cards come fallin'

Down on the bet, bet it's all in your head

So shake your fist if you're even here

Down on the bet, bet it's all in your head

So shake your fist if you wanna go

Oh, you're losin' control

You're beggin' please and you're ready to go

Oh, I better not show

I'm drawin' dead and I'm ready to fold

In your head I'm somethin' more

It's not the first time you've asked before

What do I have to do to shut my mouth and love?

Down on the bet, bet it's all in your head
So shake your fist if you're even here
Down on the bet, bet it's all in your head
So shake, shake, shake your fist if you wanna go

Oh, you're losin' control
You're beggin' please and you're ready to go
Oh, I better not show
I'm drawin' dead and I'm ready to fold
