

Wednesday Wedding

Omni

Your latest episode hit upward from
Wait and see, it's you and me
I'm on the right code, I'm not on
A to Z, such a relief
Take it, take it, take it back and
Don't you tell me the real number
I'd like to see

The guy come who is all night long I've been calling
Leaving messages and white walls
And advantages there
I've been calling
Leaving messages and white walls
And advantages
White walls and advantages
Quality of life is hanging on the line
We're taking you
We're taking you For you, something, bud
Take us and begin to see
It's you and me
With danger egging on, as you're blighted
We could see so differently
Take it, take it, take another
Don't you tell me the real number
I'd like to see

The guy come who is all night long I've been calling
Leaving messages and white walls
And advantages there
I've been calling
Leaving messages and white walls
And advantages
White walls and advantages
Quality of life is hanging on the line
We're taking you
We're taking you
Quality of life, it called not once but twice
We're taking you too
We're taking you too
