

Till The End Of Time

Chicago

Why...do you love me like you do
Baby you deserve much more
Why...after all I've put you through
Would you stick around for more Heaven's at my feet now that I've found you
Life seems so complete when I'm around you
No one else could touch me quite so deeply
No one's love could satisfy me so sweetly
Love me till the end of time Why...even though you know I'm crazy
Do you still believe in me
Why...does a smile come so easy
Baby, since you set me free Free from all the weary wasted hours
Free from all those meaningless encounters
Free to live our lives the way we want to
Free to realize just what we've been through
Love me till the end of time Heaven's at my feet now that I've found you
Life seems so complete when I'm around you
No one else could touch me quite so deeply
No one's love could satisfy me so sweetly
Love me till the end of time Love me...only you can love me like you...
