Fool Me

The Arcana

I said love you youâ€™ve got it
Come on come on come on
Baby youâ€™ve got it now

People try to fool me tell me all about it
People try to fool me baby hey tell me all about it

I said how about it
Come on come on come on
Wanna pull me out of it

People try to fool me tell me all about it
People try to fool me baby hey tell me all about it

People try to fool me tell me all about it
People try to fool me baby hey tell me all about it

People try to fool me
People try to fool me
People try to fool me baby hey

People try to fool me
People try to fool me
People try to fool me baby hey
