Desert Flowers

Wake Owl

I want my lips
To kiss you kiss you baby
It's been awhile
A miss'll make me crazy
But my demons can't face me
I want my lips
To kiss you kiss you baby
From a star out there
And the darkness did persuade me
But my demons can't face me
I'll consume
All I tried to defend
I'll become
All I tried to condemn
To break the spell of your friend
Found me in
Desert flowers in bloom
My secret talk
Beside me in a room
The future see you too soon
