

Come Alive

Crystal Rose

VERSE 1:

Say you will

Or don't say anything

We're gonna jump in the sweetest kind of deep

It makes me feel

Got my heart of my sleeve

Would you let me explain your gravityPRE CHORUS:

Can't fight It

Such a stunna

scoping like a headhunter'

don't you worry this one's on me babeCHORUS:

When you go running wild, know that I'll be running with you

If you stay where you are, you know that I'll be right beside you

Don't care where we wind up, let's get away

Take all of my time up, I'm not afraid

Hold me tighter, And speak your mind

Sinking in this love I

I come aliveVERSE 2:

Hit the ground

My heart races at the sound

Your voice leading me out of this sleepPRE CHORUS:

Can't fight It

Such a stunna

scoping like a headhunter'

don't you worry this one's on me babeCHORUS:

When you go running wild, know that I'll be running with you

If you stay where you are, you know that I'll be right beside you

Don't care where we wind up, let's get away

Take all of my time up, I'm not afraid

Hold me tighter, And speak your mind

Sinking in this love I

I come aliveBRIDGE:

(sinking in this love, sinking sinking in this love)

With you I touch the sky

(sinking in this love, sinking sinking in this love)

I live for the thrill baby

(sinking in this love, sinking sinking in this love)

It's love until we die

(sinking in this love, sinking sinking in this love)

It's love that can save me
Don't care where we wind up, let's get away
Take all of my time up, I'm not afraid
Hold me tighter, And speak your mind
Sinking in this love I
I come alive
CHORUS:
When you go running wild, know that I'll be running with you
If you stay where you are, you know that I'll be right beside you
Don't care where we wind up, let's get away
Take all of my time up, I'm not afraid
Hold me tighter, And speak your mind
Sinking in this love I
I come alive
