

# California

## The Moffatts

I open my eyes to see her face  
In a daze we engaged  
Last night I slept about an hour  
To fill her needs and desires One more night in California  
One more night with you  
One more night Ya she's alright  
(She's alright)  
One more night  
(Yeah)  
One more night in California Dom dom dom, baby, one more night  
Dom dom dom, baby, one more night I need to catch a ride to the south side  
I grabbed a patty and a shake  
I felt the earthquake, I jumped in the cab for LAX  
I flipped him a tip, hey man, then I split One more night in California  
One more night with you  
One more night But she's alright  
She's alright  
One more night  
(Yeah)  
One more night in California Night in California  
Night in California  
Night in California Dom dom dom, baby, one more night  
Dom dom, baby, one more night  
I opened my eyes to see her face But she's alright  
She's alright  
One more night  
(Yeah)  
One night in California She's alright  
She's alright  
One more night, yeah  
One more night in California Night in California  
Night in California  
Night in California
