

# Planes Fly

## Angel Haze

Don't think your love is the antidote  
Don't try to fix me when you know you're just as broken  
Don't tell me that I'll be ok  
When you every time you kiss me you can taste a little pain  
We can dance with the stars while I fish from the moon  
You said messages bottled to the pits of my womb  
And I thought that in the midst of me dying you'd find a cure for me  
And magnetize your vibrance and finally have a pull on me  
I pictured you running to everywhere you need to go  
I'm up in the air still running from everything below  
Yeah I'm not sure what it is  
But I got jet fuel in my soul, propellers on my ribs, We'll fly  
When the tunnels got no light  
And the light exposes messed up life  
It's alright when the good feels bad but the bad feels better  
Planes fly high enough to take us anywhere  
And We'll go but hear no, breathe no, see no fear  
And I know trouble will find wherever we are  
Keep wishing easy baby we'll be closer to the stars  
Swallow my secrets like a bitter pill  
Repeat the same mistakes, the wounds will never heal  
You know the reason I can't look you in your eyes  
But I want your guilty body like you love my dirty mind  
And I will never steal you wrong  
So try  
And when everything is gone  
I will be where ever you reside  
With my eyes full of passion desire running behind it  
I don't know what that means but I'm sure we'll find out together  
When good feels bad and eternal feels like forever  
And hearts will sink like a birds lost feather  
To end all, to be all to a pulley to a lever  
Planes fly high enough to take us anywhere  
We'll go but hear no, breathe no, see no fear  
And I know trouble will find wherever we are  
Keep wishing easy baby we'll be closer to the stars  
Keep running baby til you find yourself tonight  
Keep running baby here you can be what you like  
Keep running baby til you find yourself tonight

Keep running baby spread your wings and fly  
Planes fly the way the skies like faded faith  
and I've tried to live my life at my now pace  
But we lose so much time here on the ground  
So it's now, take your fly and burn it down  
Planes fly high enough to take us anywhere  
And we'll go but hear no, breathe no, see no fear  
And I know trouble will find wherever we are  
Keep wishing easy baby we'll be closer to the stars  
Keep running baby til you find yourself tonight  
Keep running baby here you can be what you like  
Keep running baby til you find yourself tonight  
Keep running baby spread your wings and fly
