Empower

Downset

Advisory - the following lyrics contain explicit language:

What's up? Death on this kid who believes the mic
Blood on the soul so what that inside be like
A cross carrier with journeys upon self I
Efforts to ashes and hands to the skyChild of light, child of light
Make solid the climb and let's see
Some new heights right, right
So am I trying to find life in what's been dead?
Yes, so recheck the mind setEmpower, can't slip
Can't slip, can't be slippin'
Empower, come alive
Come alive, come alive
Empower, positiveWhat up with self? What up with self?
Can't give up no love unless I deal with my own hell dig
It's all about wrecking the age of self defeat
Dignity worth of all human personalityWe must believe on our trust potential
Our life has the true meaning and value of now
Our only hope today lies in our ability
To lift ourselves from this ever rising hellEmpower, can't slip
Can't slip, can't be slippin'
Empower, come alive
Come alive, come alive
Empower, positive, positive
Call with your powerEmpower, empower
Take your life back
Take your life back
Take your life back for
Empower, positive, positive
Positive, give me life to live
Empower
