

# **Sad Pricks**

## **METZ**

Dont want to wake up in the morning  
Ive got to clear my head  
Im getting pulled in a million directions  
I shouldve stayed in bed

Dont want to know (Everyday there is something wrong) x 4  
Dont want to watch the television  
Or pick up the phone  
So many different people talking at me  
Why dont they leave me alone?  
Dont want to know (Everyday there is something wrong) x 4
